41. One possible version:

How can we keep healthy?

Nowadays, people pay much more attention to health. It is necessary for everyone to learn some ways to keep healthy.

We should do sports every day. We shouldn't refuse to exercise. Running for an hour every day is good for our health. We should keep a balanced diet. Eat more fruit and vegetables. We shouldn't have junk food because it is bad for health. We should have enough sleep and shouldn't stay up too late. We shouldn't play computer games a lot because it hurts our eyes. Sitting for a long time is also bad for our health. We may feel

pain in our shoulders and backs.
Most importantly, we should stay
in a good mood and don't get
angry easily. If we follow these
rules, we'll be healthy.

Many hands make light work

Have you heard of the saying
“Many hands make light work”? I’d
like to share one of my experiences
with you. It makes me understand it
better.

Last month, our teacher asked us to make a book report on a book called *Treasure Island*. Our team members decided to work together to do the task. I like reading novels and always have a better understanding of the characters, so I offered to pick out the exciting parts of the novel.

My friend Amy searched for some information about the writer while other members read some reviews online. We also asked our teacher for advice. Through the teamwork, the report got great success. We were all very happy.

From this experience, I believe that working together not only brings us happiness but also leads us to success.

Dear Mike,

Thank you for your email!

I'm sorry to hear that you have a hard time working as a team.

I have really met similar problems before. When we have different ideas in a group, it's very important that we should first respect each other. Then, we can write down all the ideas on a piece of paper and analyze their advantages and disadvantages carefully. At last, we can vote to make a final decision.

I really think teamwork is very good. It gives us a great chance

to learn from each other and grow together. Through working together, we can put together our own strengths and resources, so we can achieve much more than we could alone.

Good luck!

My own drama story

Li Hai is fourteen years old.

He is a helpful boy. He is ready to help people in need anytime.

Last Sunday afternoon, he was alone at home. He did some reading after finishing his homework. Suddenly, he heard someone shouting for help. He ran outside and

saw much smoke from next door. The seventy-year-old Mr Sun lives alone next to his flat, so he went in and found Mr Sun in the kitchen. His leg was badly hurt, so he couldn't get out. The smoke was heavy and the fire was hot, but Li Hai was quite calm. He dialed 119 first, then rushed to the bathroom and poured water over his clothes to protect himself. Then he put a wet blanket over Mr Sun and helped him out safely.

What a brave and helpful boy!

Learn from Lei Feng

Lei Feng was a great soldier.

He loved to learn and he was always ready to help others. As a student,
what should we learn from him?

Firstly, it's our duty to study hard. We had better help our classmates who are weak in study. They really need us. We must believe that if everyone can do a little favour, our world will become better and better. Secondly, it's good manners to

help those in trouble. Helping others is helping ourselves. As the saying goes, “Roses given, fragrance in hand.” Thirdly, we are supposed to live a simple life instead of wasting anything.

All in all, we should learn from Lei Feng forever and be always ready to help others.

Ladies and gentlemen,

Welcome to the Chinese culture tour. Now let me introduce one of the traditional Chinese festivals — the Spring Festival.

The Spring Festival usually falls in January or February. It is also called Chinese New Year and the biggest day of the year. So people come back home from different places and get together for a big dinner. Many people stay up late to welcome the new year, hoping they will have a bright new start. During the festival, people visit their relatives and friends and wish each other good luck for the new year. Children can often get lucky money from their relatives. Do you think it is interesting?

That's all. Thanks for listening.

How new technology

improves our life

New technology plays an
important role in our daily life.
The development of new technology
is changing our life at this moment.

We buy what we need in our daily life. Now, online payment has changed the way we pay. It allows us not to carry cash. At home, the sweeping robots help us do housework, which allows us to have more time to develop our hobbies. Of course, the high-speed rail makes our travel more convenient. For example, we can reach far places in a short time. We can book tickets online, too.

In a word, new technology is helpful. We should thank technology and make good use of it.

Science and technology

change our life

With the development of science and technology, our life has changed a lot. Smartphones, robots, high-speed trains and electric cars are four great inventions.

The smartphone brings both convenience and pleasure to our life. We can shop online, watch movies, and have video chats with it. The high-speed train has greatly shortened our travel time. It's very fast and comfortable. The

electric car has also changed our life. It can not only save energy but also protect the environment. It is convenient and green. As for robots, they can help us with housework, help children with their homework and so on. It saves us a lot of time and energy. What a great change!

Hello everyone.

I am Li Hui. I stand here with a heart full of warmth and memories. Last Spring Festival, my family and I gathered together, just like the reunion of a dragon dance, filled with energy and tradition. The laughter and joy, and the retelling of old tales — it was a celebration that filled our home with love. It reminded me of the power of family and the beauty of our rich cultural heritage. This unforgettable experience taught me that the simple moments with loved ones are the most precious.

Thank you for listening.

M: Mum! Mum! Come and help!

W: What's up, Bill?

M: I was trying to cook beef and tomato
noodles because that's my homework.
But you see? This!

W: Oh, you cooked the noodles too
long and they are burned.

M: So could you do it for me?

W: No, it's your homework. You have
to do it yourself, but I can tell you
how.

M: Good. I can't wait.

W: First put in some hot water, then the
noodles, and cook them for three
minutes. During this time, cut the
beef and tomatoes into pieces. Put

them in when the time is up. Now
cook all the things for another three
minutes.

M: Yeah, it looks very nice. Now have
we finished yet?

W: No, you also need to put some salt
in. Yes, that's enough. Now it's done.

M: Hooray, I did it.

Good morning, boys and girls. In today's class, we will play a game about inventors. I'll give some information about the inventors, and all the three groups will guess who I'm talking about. You can get 20 points for each correct answer, but if you get the wrong answer, it will cost you 10 points. Remember to put up your hands if you have the answer. When I see your hands up, I'll ask your group to answer. Now let's start. The first inventor for you to guess is a man.

He was born in the state of Lu in ancient China in 507 BCE. He invented many other useful tools for carpenters and interesting toys for children. Does any group know the answer?

Q17: What will they do about inventors?

Q18: If you get the answer wrong, how many points will it lose?

Q19: When was the first inventor born?

Q20: What does the speaker probably do?
